

HOW TO BUY ELIGUGU PREPAID TOKENS

Prepaid electricity tokens can be bought in a variety of ways to ensure tenants can recharge 24 hours a day at many convenient locations countrywide. We also have online partners and tokens may be purchased through a variety online systems, including banks, as well as our own portal below.

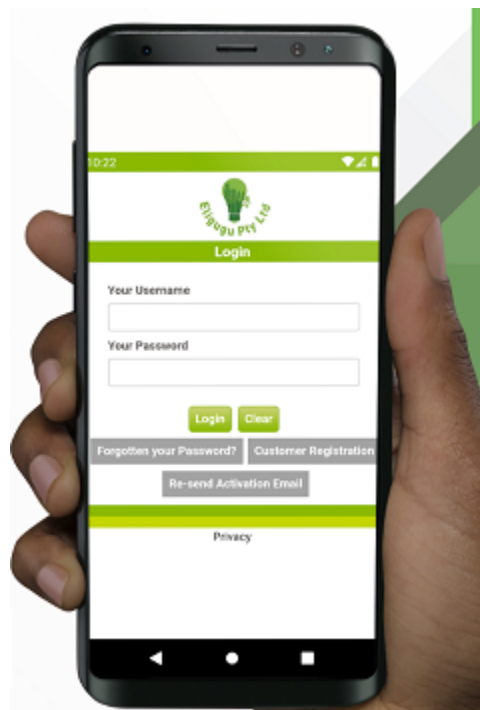

WARNING

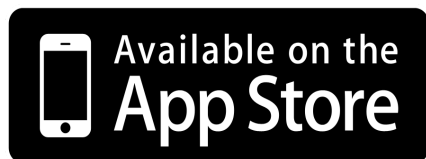

Please note Eligugu Prepaid only dispenses electricity tokens for meters managed by us. We do not dispense tokens for other sub metering service providers, Municipal or Eskom meters. The following options exist for purchasing tokens.

Eligugu App

You can purchase electricity via the Eligugu App available on App Store and Google Store

What you do is after downloading the App from Playstore you follow prompts to register the meter and link it to your bank account.

Retail Stores, Kiosks and Petrol Stations

Tokens can be bought at any of the following:

Go to any of the above displayed retail outlets with your meter number that you are to present to the cashier at the till or counter, You will pay for electricity and receive a slip with your 20 digit token number. Punch the number into your prepaid electricity meter.

.Your online or mobile banking app

Navigate through the banking apps to the 'Buy' button and then the 'electricity' button. Follow the prompts and you will receive your 20 digital token via the app or SMS.

USSD for Cellphone Banking

Ensure you are registered for your bank's cellphone banking service.

Use the following USSD codes to initiate the purchase and then follow the prompts

Absa: *120*2272#

Capitec: *120*3279#

Nedbank: *120*001#

Standard Bank: *120*2345#

FNB: *120* 321#

Once the transaction is complete you will receive an SMS with your token number
